

# Move out checklist

Please find below a guidance check list to complete for the cleaning of the property – there may be more cleaning required than the main points listed. This document must be printed, signed and dated before the deposit can be returned.

In our experience tenants often leave cleaning until the last night and then discover there is far more to do than initially imagined - we recommend that you begin a thorough clean of the property a couple of weeks before you are due to leave the property and then give a light but satisfactory clean as close to the time you leave as possible.

Unfortunately, once the property has been vacated we cannot allow you to return to do more cleaning if the level of cleanliness has not been deemed sufficient.

At this stage we wish to intimate that it is in our interests as much as your own for the property to be adequately cleaned. We use an external company for cleaning and do not make any financial gain when cleaners have to be used. To ensure impartiality we do not charge an administration fee for our time in sorting out cleaning related incidents - this can be a considerable cost to our own business as we record the cleaning required, intimate to yourself the situation, arrange for the cleaners, provide the cleaner with access to the property, conduct an inspection of the cleaner's work and then have to deal with the invoices, payments and deposit deduction. Cleaners are not particularly cheap and it can be surprising how long it takes to properly clean a property.

I confirm that all the items on the checklist have been completed.
